

NOTE: INDICATIVE TENANCY MIX & SUBJECT TO CHANGE AT THE SOLE DISCRETION OF THE LANDLORD

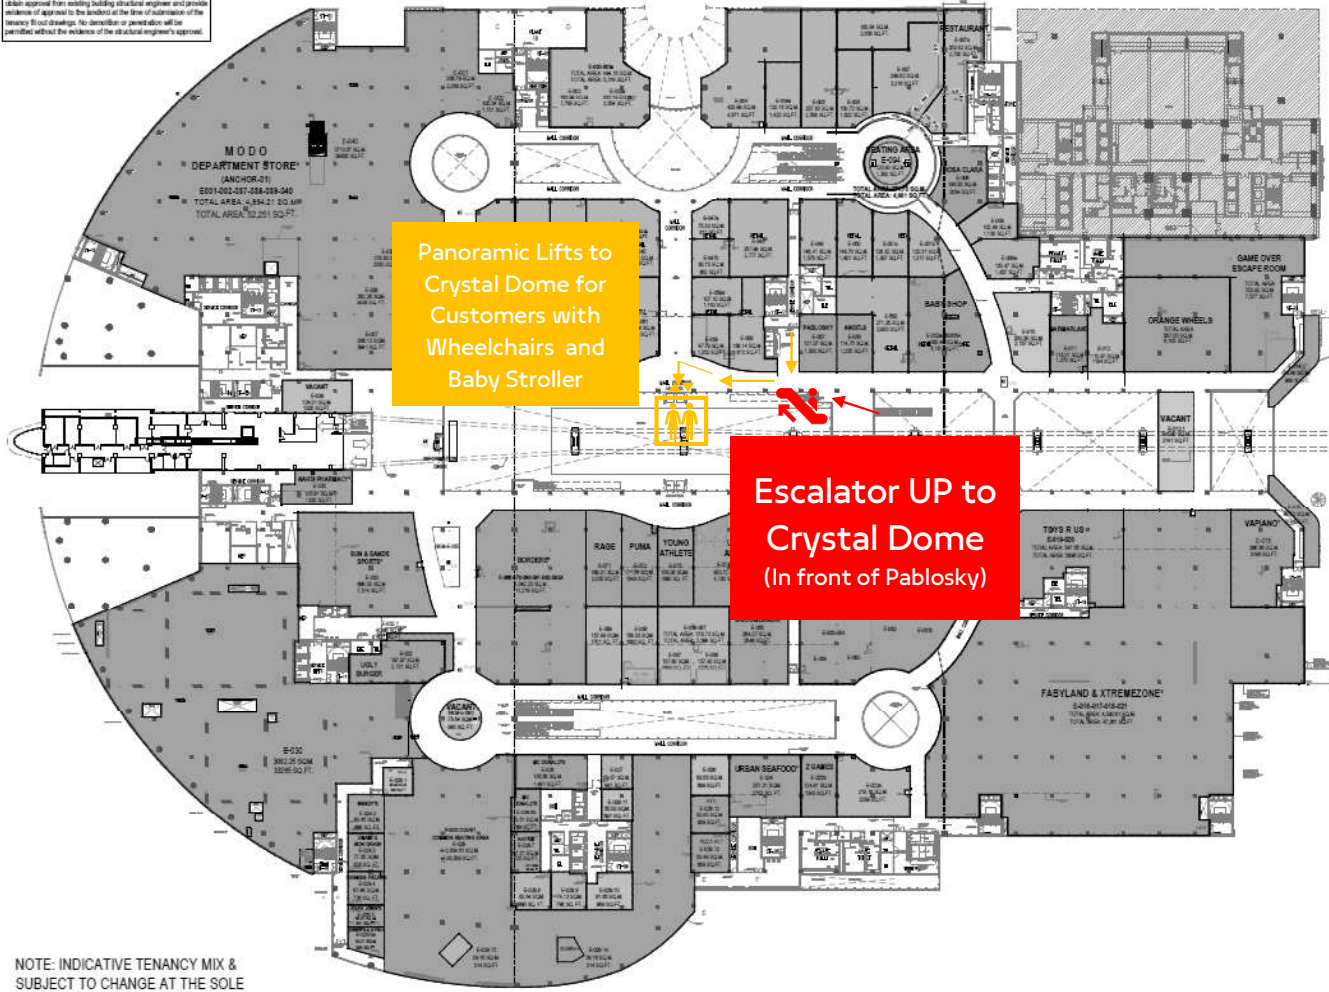

First Floor

- Route from Bus - Drop off Area to Escalator UP to Second Floor
- Route from Bus - Drop off area to Elevator UP to Second Floor

Please carefully verify all dimensions, service locations and other information on site prior to commencement of any design work on site or production of plans or other documents. The architect does not accept any responsibility for any discrepancies which may occur between these drawings and actual site conditions.

Prior to proposing demolition or penetration through any existing structure which includes beams, masonry walls, columns, ducts, shafts and ceilings, client must ensure that its design consultant/contractor obtain approval from existing building structural engineer and provide evidence of approval to the architect at the time of submission of the tenancy fit-out drawings. No demolition or penetration will be permitted without the evidence of the structural engineer's approval.

NOTE: INDICATIVE TENANCY MIX & SUBJECT TO CHANGE AT THE SOLE DISCRETION OF THE LANDLORD.
